

## Donald Duck's 313 car

Donald Duck's famous little 313 - a "1934 Belchfire Runabout", according to Carl Barks - in 1/32 scale (6w), including an additional Duck Avenger\* version.

A Donald Duck minifigure fits inside (without tail piece and, if you want to install the convertible roof, without his hat). Of course, the car features a foldable rumble seat. ;-)
